Cristhian A. Luna
Web Developer

About me

Web developer based in Ecuador with 2+ years of experience building web apps for different local and US SMEs in multiple sectors. With an emphasis on details, translating layouts into an efficient, reusable, readable & secure code.

Tech Skills

- Core concepts **Javascript** & **ES6+,HTML. HTML5, CSS3**
- Experience building apps with state management libs like **Redux, useState, useContext**.
- Deep understanding of **DOM Manipulation. Box Model Grid, Flexbox**
- Good parctice styling with **tailwind, styled-components** & **responsive design**
- Experience working with testing tools & debugging skills, **Lighthouse(SEO), JEST, Redux dev tools**.
- Solid knowledge of React, hooks, functional components, key concepts.
- Authentication, Autorization & **JWT**
- Strong familiarity with **Rest API**, Asynchronus, **Promises, Fetch API**
- Other tools that I use: **React-redux, Toolkit, Formik, axios, Postman**

Experience

March 2021 - until now (Fulltime)
Fullstack MERN | Freelance
As a Freelance I give support and web development services to different businesses. I collaborate with different IT teams attending their tickets and giving solutions, fixing bugs, deploying applications, documenting, or developing features sometimes.
Relevant customers:

- Fulltime Force (Peru),
- Gunderson (USA),
- Viafasken (USA)

May 2020 - Sept 2020 (Part-time)
Fullstack MERN | BESE (Ecuador)
In this role, develop different functional modules for inventory management, user control (login, registration, password recovery), and collaborate in the building of a Restful API for server requests. Also, I help to document the user jorney.

March 2019 - Feb 2020 (Part-time)
Frontend Developer | Kninos (Ecuador)
Participated in the building of an application for pet record's management , owners, medical staff, clinical history, medications, veterinary consultations, inventory; etc.

Education

System Engineering (2022)
ULEAM, Computer Science Faculty
